# Decra Bevel.<sup>®</sup> Collection

EDITION 3

for doors, fanlights,  
conservatories,  
cabinets and mirrors

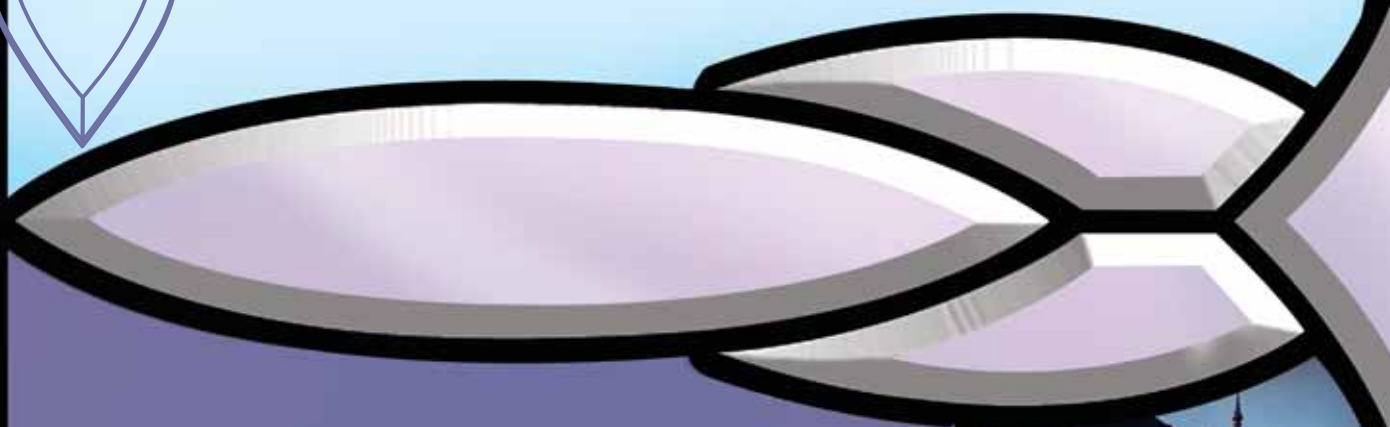

**Since** its introduction over 10 years ago, the Decra Led® range of bevels has grown to become an impressive collection of bevel clusters and shapes.

A range that allows endless design possibilities.

A range that excites your customers.

A range that is constantly evolving.

In this current collection, many attractive designs have been added. They are made to our exacting high standards retaining the thin edged bevels for which we are famous.

You will also be pleased at the fit of each shape in the clusters, as we continue to maintain our market leader's reputation.

On doors, windows, conservatories and around the home, Decra Bevels® make a difference.

This new brochure, containing the "Easy Bevel Finder", demonstrates

the commitment to our customers, who demand the best, and who depend on our comprehensive range of products (lead, film and bevels), to produce visibly superior decorative glass.

In our Design Brochures there are many examples which show some of these bevels integrated into so many beautiful fanlights and doors.

**The collection that keeps you one step ahead of the competition – Decra Bevels® from Decra Led®.**

# Decra Bevel® Collection

EDITION 3

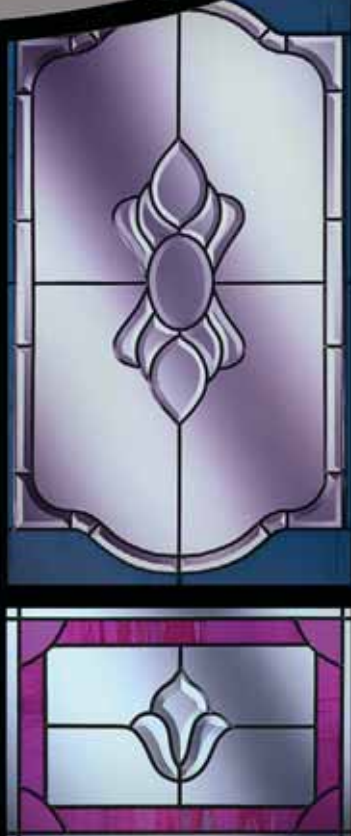

The collection that  
keeps you one step  
ahead of the competition

Our range of bevel shapes and clusters has a low profile edge which makes applying lead to your final design easy. We supply all you need to apply bevels to glass, including adhesive and applicator. The whole process is shown step by step in the Decra Led 'Product Demonstration DVD'. Let Decra Bevels do the business for your business.

In our Design Brochures there are many design suggestions. All are photographed in full colour, designed to give you lots of inspiration, with pages of exciting designs to choose from.

Designs suitable for doors, exterior and interior, fanlights, conservatories and windows.

A range of designs, both traditional and contemporary, with the bonus of modern, state-of-the-art materials to create an effect which will look magical and stay looking good for years to come.
